

CORPORATE FINANCE + SECURITIES

Our Corporate Finance and Securities team is experienced in a broad range of public and private financings including both equity and debt. Our lawyers have acted for a wide range of public and private issuers, underwriters, institutional investors, venture capital and private equity funds, and other market participants.

The expertise we bring includes representing acquirers, targets, boards, committees, shareholder groups, and financial advisors in a wide range of mergers and acquisitions including negotiated (friendly), and non-negotiated (hostile) take-over bids, plans of arrangement, divestitures, corporate reorganizations, proxy contests, going private transactions, and similar transactions, both domestic and cross-border.

In addition to transactional work, our lawyers assist clients with compliance, including corporate governance, disclosure obligations, stock exchange requirements, and other securities regulatory matters.

Our lawyers have acted for clients that operate in a multitude of business sectors and jurisdictions. We have particular expertise in the energy, forestry, industrial, life sciences (including pharmaceuticals), mining and technology sectors.

We regularly draw upon the skills and expertise of legal practitioners in other areas of the firm including corporate, mergers & acquisitions, competition, regulatory, labour and employment, and litigation.

OUR SERVICES

- Public offerings and private placements of equity and debt securities
- Amalgamations, mergers, arrangements, acquisitions, divestitures and reorganizations, including “going private” transactions
- Pre-public financings, including angel and venture capital investments
- POP system, MJDS, cross-border and shelf offerings
- Takeover bids and issuer bids
- Stock exchange listings
- Related party transactions
- Ongoing compliance with securities law including corporate governance and continuous disclosure requirements
